Subject: Kingman Repair Update

Ms. Diaz,

As you know we have had contractors on site at Kingman since the disturbance preparing estimates on the repair and timeline associated with same. To date the estimate at this time is \$1.93 million, this is the initial estimate and could change as we proceed with the repair. Contractors are currently estimating 4 months to complete the repairs on the unit. We will continue to work closely with them in the interest of accomplishing this task as soon as possible. The clean-up of the unit is expected to be complete by next week. We have instructed contractors and Warden Shaw to proceed as soon as possible in an effort to bring the facility back on-line as soon as possible. Please feel free to let me know if you have any questions or concerns.

Thanks,

Sergio Molina
